CDC Behavioral Risk Factor Surveillance System, 2007; Data are age-adjusted to year 2000 population

* Percent of persons age 18-64 responding "Yes" to question: Have you ever been tested for HIV? Do not count tests you may have had as part of a blood donation.

**Data not available.

States have been sorted and presented by the 2007 percent of total adults 18-64 who have ever been tested for HIV.
